

The background is a solid light blue. It is decorated with stylized clouds. At the top, there are four large, white, fluffy clouds with blue outlines and internal wavy patterns. At the bottom, there are three clouds: two white ones on the left and right, and a central one that is a darker blue color with the same wavy pattern. Small yellow stars are scattered throughout the scene, including one near the top left, one near the top center, one near the top right, and one near the bottom center.

Why did we build this

With busy schedules and a lot to keep track of, students often misplace or forget items in classrooms. This web app creates a central lost-and-found space for students and anyone else to post, search for, and recover missing items

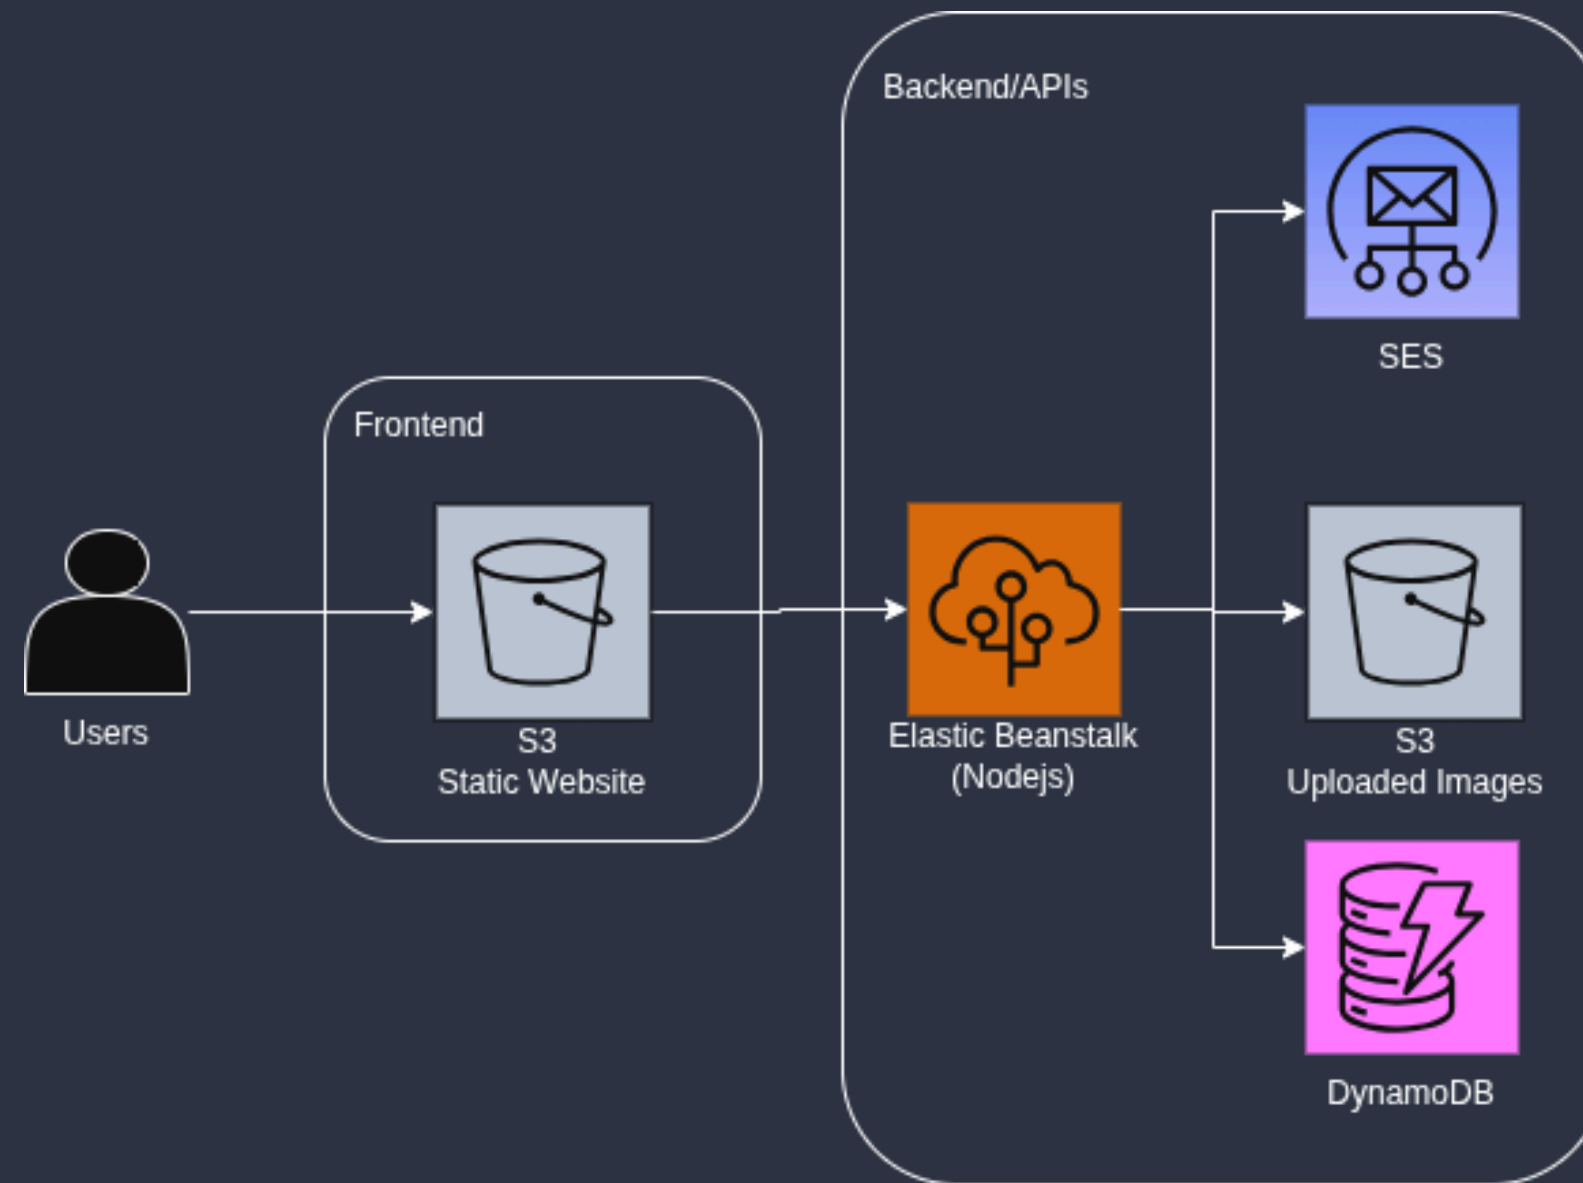

Features

- Create lost or found item posts with details like title, image, description, approximate location, and date
- Browse listings by viewing only lost items or only found items, and filter posts by newest or oldest
- Contact the post owner by email and remove posts when they are no longer needed

Tech Stack

Frontend: HTML, CSS, JavaScript
Backend: Node.js and Express APIs
Local Database: JSON File

Deployment Architecture

The background is a solid light blue. At the top, there are two clusters of dark blue, stylized clouds with white outlines and internal patterns. Scattered around these clouds are several small, five-pointed yellow stars. At the bottom, there are three clusters of clouds: two are light blue with white outlines and internal patterns, and one in the center is dark blue with white outlines and internal patterns. The word "Demo" is centered in the middle of the image.

Demo

Q&A

The background is a solid light blue. At the top, there are three dark blue clouds with white wavy patterns and several small yellow stars. At the bottom, there are three white clouds with blue wavy patterns and a central dark blue cloud with white wavy patterns.
